RETHINK LEARNING

Switch eDU Online is a forward thinking online school that provides a tailored curriculum that is based on foundational entrepreneurship.

We need to be adaptable and be prepared for constant change as we move from the old to the new.

ABOUT SWITCH EDU ONLINE

Switch eDU Online offers a contemporary and fresh new approach to learning by renewing traditional teaching methods and delivering a dynamic, relevant and practical curriculum that reflects current attitudes.

We promise to provide learners with the best possible chance to reach their full potential, as broad conscientious global thinkers to have the best start in life. This intentional foundation will equip them to take on the world with the confidence and relevant skills that ensure their future success.

With our team of highly experienced and passionate education specialists, we were inspired to 'Rethink Learning' and launched Switch eDU Online.

VALUES

Switch eDU Online has in place a set of core values that underpin the vision of our school of developing teaching that is based on FOUNDATIONAL ENTREPRENEURSHIP to develop learners who are real world ready.

These core values are the cornerstone of all that we do. They are;

1. Personal Development
2. Forward Thinking
3. Global Outlook

MISSION

Our mission is to transform learning to meet the future, integrate real life learning, enhance personal development skills and equip learners to engage fully as members of the global community.

OUR TEACHERS

Our teachers have broad and diverse teaching experience with a strong track record in empowering and equipping learners with the knowledge, skills and dispositions to thrive in the world around them, today and into the future. The academic team consists of teachers who are passionate about teaching and are particularly skilled in adapting students' diverse learning styles encouraging them to ask questions in class and take control of their own learning.

TEACHING METHOD

SYNCHRONOUS: Most classes are teacher led and taught through live online lessons using clear informed presentation of information. These are recorded and are available to learners to replay later or for those who may have missed the live class.

ASYNCHRONOUS: To compliment the synchronous learning approach, asynchronous tools that are learner centered such as hands on activities and independent learning are also used.

CLASS SIZES: 25 per class maximum

LEARNER MANAGEMENT SYSTEM (LMS)

Switch Edu Online has in place a revolutionary cloud based end to end Learner Management System called CLASSTER. A trailblazer in the sector, Classter is used by over 500 institutions in more than 25 countries around the world. Some of the key features include;

The Learners Portal allows learners to keep track of their academic performance with a personalized calendar of events and teaching Schedules among other things.

Parents can also follow their children's schedules and general academic performance or stay in contact with teachers and administrator by communicating via the message center.

Teachers can upload detailed tasks, homework or lesson plans in-class tests, online or offline quizzes for learners to access and complete and effectively support their learners.

LEARNING OBJECTIVES

- To teach and prepare learners academically to excel within the CAPS curriculum framework
- Encourage independent and experience based learning beyond the classroom, be it in the home, socially or outdoor environment to encourage active learning that stimulates the mind, body and soul
- Delegate real life or simulated tasks, that provide the learner with opportunities to connect directly with the world to make the learning process relevant and meaningful
- Learners to develop skills they can use daily or take with them through their post school years either through tertiary education or their chosen career path.
- All teaching is informed by real life learning based on 3 key pillars:

1.PERSONAL DEVELOPMENT

Foster personal development techniques to help learners, grow and become well-rounded individuals with practical life and self-knowledge skills.

These areas include; How to Communicate; Personal Responsibility; Building Self Esteem & Confidence, Etiquette & consideration, Emotional Intelligence; Personality Development; Managing conflict etc.

2.FORWARD THINKING

Develop learners to think beyond the present and start think about future. The various focus areas will include to;

Foster their curiosity through questioning, using the imagination to think out of the box, nurture their ability to be creators, understanding the importance of goal setting, scenario planning, enhance their creative minds through the arts and storytelling.

3.GLOBAL OUTLOOK

We want to equip learners to be prepared for the global environment in which they will one day work or do business in through;

Teaching experiences that recognise the importance of looking beyond the SA borders; Diverse teachers from different backgrounds in South Africa and around the world; as well as the incorporation of International languages lesson offering.
